

PLAY SHADE

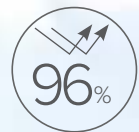

GIVE PLAY AN UPGRADE BY INVESTING IN SHADE

How do you make a new playground even more appealing?

By adding play shade! Shade not only makes shared recreational spaces more comfortable for guests—it also extends the life of playground equipment and amenities, so you can rest assured your investment will last for years to come. Our fabric play shades keep families safe and play structures vibrant by blocking up to 96% of harmful UV rays and providing extra protection against inclement weather. They can even keep your playground up to 20 degrees cooler than traditional steel roof shades, while adding a bright, colorful aesthetic to your space.

In addition to making your playspace more comfortable, an effective shade structure can also make your playspace more inclusive. Some children and adults have sun allergies, and others are more susceptible to sun poisoning and overheating due to medications commonly used by those with epilepsy, cerebral palsy, and autism.

Everything Under One Roof

Why purchase play shade from Little Tikes Commercial?

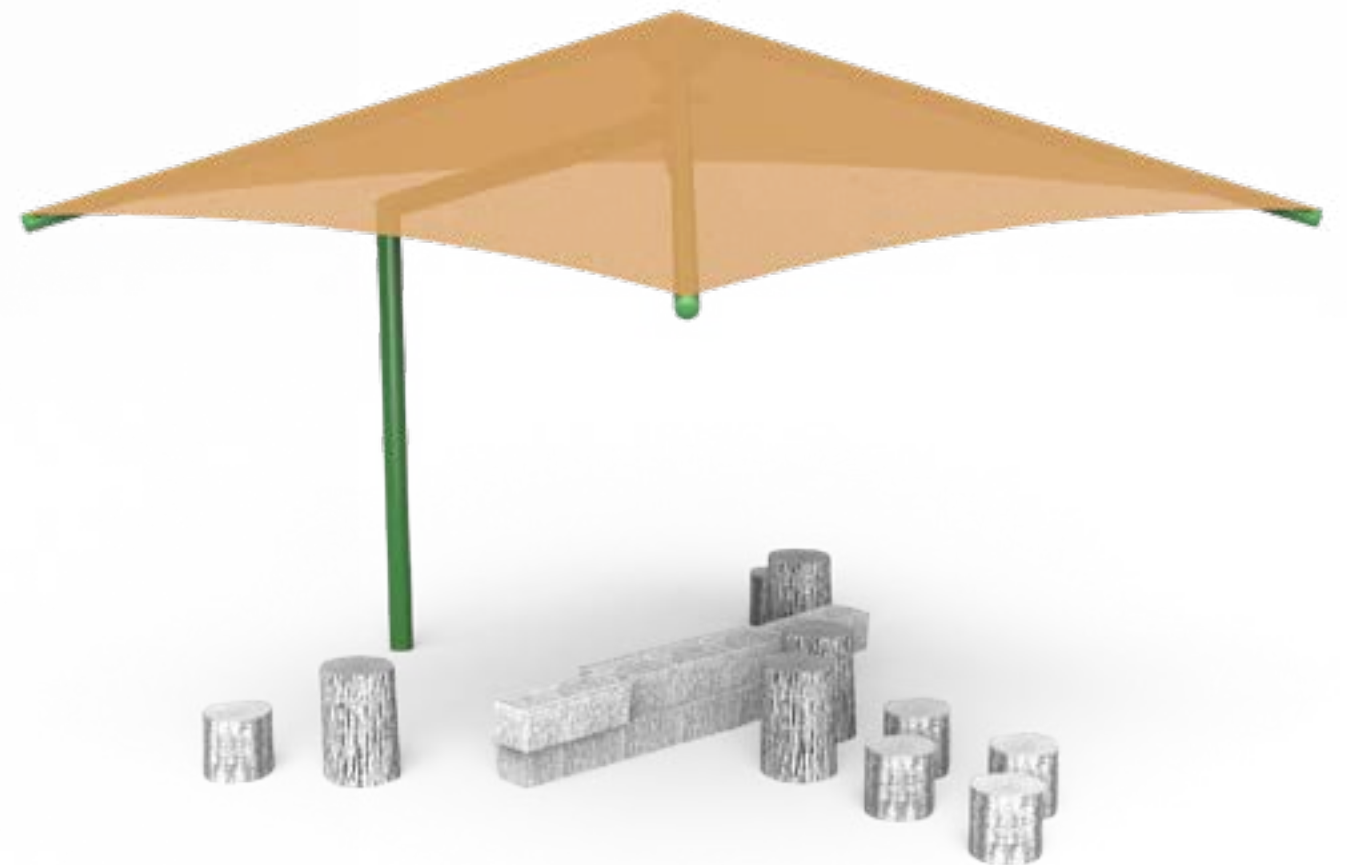

- **Match it to your play space.** Various post and fabric colors are available.
- **Ensure quality and turnkey support.** There's just one point of contact for all your needs!
- **Make fabric attachment/removal quick and easy.** Many models feature quick release (QRE).
- **Spend less time on maintenance.** Our shades are engineered to last.

SINGLE POST PYRAMID

Our Single Post Pyramid shade provides up to 260 square feet of coverage with just a single column. It's an ideal solution for areas where shade is needed but space is limited, such as seating or dining areas. Choose from embedded or recessed base plate mounting styles, and standard or quick release options.

Sizes	Entry Heights
12' x 12'	8'
14' x 14'	10'
16' x 16'	

SINGLE POST PYRAMID CANTILEVER

The Single Post Pyramid Cantilever shade offers all the benefits of the traditional Single Post Pyramid, but provides a shaded area free from columns. Choose from embedded or recessed base plate mounting styles, and standard or quick release options.

Sizes	Entry Height
12' x 12'	8'
14' x 14'	
16' x 16'	

HIP

The Hip shade features clean, straight lines and is one of the most commonly used styles for shading large play structures. Choose from embedded or recessed base plate mounting styles, and standard or quick release options.

Sizes	Entry Heights
10' x 20'	8'
15' x 25'	10'
18' x 36'	12'
20' x 24'	
20' x 30'	
20' x 34'	
24' x 30'	
24' x 40'	
30' x 40'	

HIP JOINED

Our Hip Joined shade features the clean, straight lines of our traditional hip shade, while sharing steel posts with adjoining shades to reduce the number of columns and increase the shaded footprint. It is perfect for areas that need more extensive coverage, such as spaces with large play structures. Choose from embedded or recessed base plate mounting styles, and standard or quick release options.

Sizes	Entry Height
30' x 60'	12'

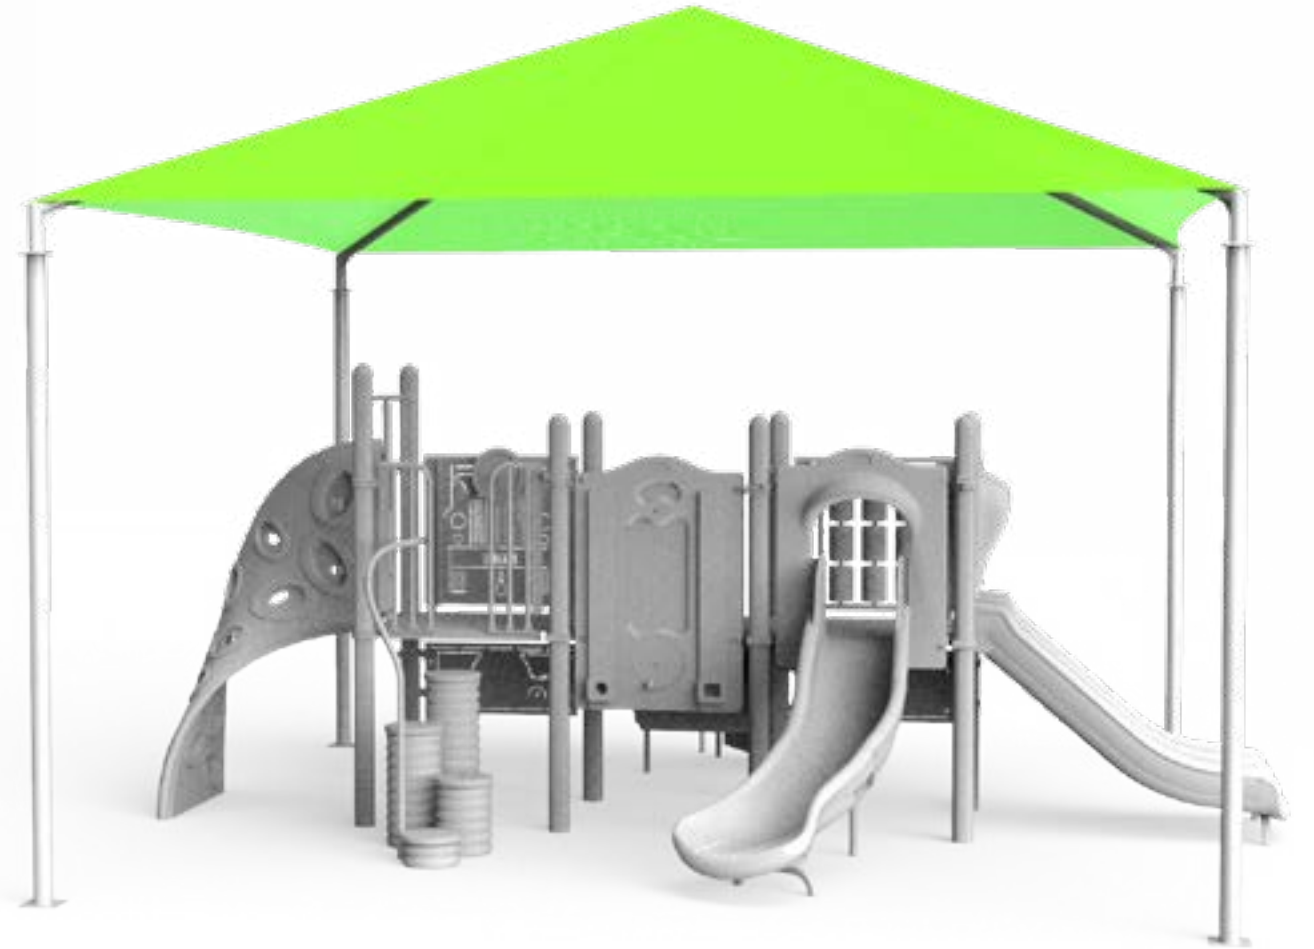

TWO-POST HIP

The Two-Post Hip shade is our most cost-effective option, providing up to 308 square feet of shade from two columns. Choose from embedded or recessed base plate mounting styles, and standard or quick release options.

Sizes	Entry Height
10' x 16'	8'
14' x 22'	

PYRAMID

The Pyramid shade is our four-post solution for areas that need extensive coverage, such as play spaces with large structures. It features a classic square, peaked roofline. Choose from embedded or recessed base plate mounting styles, and standard or quick release options.

Sizes	Entry Heights
10' x 10'	8'
14' x 14'	10'
20' x 20'	12'
24' x 24'	
30' x 30'	

MARINER PYRAMID

Our Mariner Pyramid shade provides the same amount of shade as our standard Hip and Pyramid structures, but features a distinctive overlapping fabric design for a more sophisticated aesthetic. It is perfect for any outdoor space with a large play structure or outdoor dining/seating. Choose from embedded or recessed base plate mounting styles.

Sizes	Entry Height
20' x 20'	12'
30' x 30'	

FULL CANTILEVER

The Full Cantilever shade is a great option for areas that need extensive shade coverage free from columns, especially large play structures or bleachers. This style features embedded or recessed base plate mounting.

Sizes	Entry Heights
10' x 12'	8'
10' x 20'	10'

Shade structures have not been tested for CPSIA / ASTM compliance. All of our shade products are designed to withstand nominal wind loads of 90 mph (144,84 kph) with appropriate footing. To extend the life of shade in snowy regions, the shade must be removed for winter in snowy regions. Shadesure® fabrics carry a 10-year limited manufacturer's warranty from the date of installation, with the exception of Red, Yellow, Electric Purple, Zesty Lime, Cinnamon, and Olive fabrics which carry a 5-year limited warranty. The samples of the colors of the steel and the fabrics shown in this document are for demonstrative purposes and are subject to the printing capacities. Please contact us for physical samples of fabric and steel colors.
